ANGELA KING

Intermediate/Senior PHP Developer

☎ 0403 544 342   @ ange@angeking.com   🔗 angeking.com   ⚲ Gold Coast, QLD, Australia

SUMMARY

After deciding on a career change into the software development industry, I landed a great job right out of uni 6 years ago. I am now looking secure a position with an innovative company where I can enhance my current skills and knowledge.

I am a meticulous coder with a strong work ethic and have a passion for delivering products that exceed clients' expectations. I can follow strict requirements and achieve them all while still producing a quality end result.

EXPERIENCE

Senior PHP Developer

Mediasphere Holdings P/L   📅 2016 - Present   ⚲ Gold Coast, QLD

- Developed custom features based on the business-critical requirements of individual clients on over 100 projects
- PHP, SQL, Git, Docker, Composer
- Integration of numerous payment gateways in the sense of payment processing, refund handling, discount/coupon management
- Developed and integrated SCORM implementation for e-learning that has been used by millions of learners throughout numerous countries
- Developed a skills framework manager that allows recruitment agencies and employers to find the best suited candidate for their open positions
- Developed and integrated a professional and custom onboarding solution currently used by dozens of recruitment agencies and employers
- Developed a heavily customised e-learning platform for CITB, UK's largest construction industry training board. Which has since made over a million dollars in course sales and is thriving today
- Developed a heavily customised e-commerce platform for the Aged Care Quality and Safety Commision. Which was created as a result of the royal commission into Aged Care facilities.
